

Let's finish  
drawing the  
giraffe!

Did you know...

A giraffe's legs are  
taller than many  
humans at about  
6 feet (1.8 m).

A giraffe can run as  
fast as 35 miles per  
hour (56 kph) over  
short distances.

A giraffe's neck is  
too short to reach  
the ground.
